

Clean the hubcap or emblem with Isopropyl alcohol.

Place the decal face down and peel back the paper backing at a sharp angle.

Align the decal and transfer tape over the hubcap and apply.

Use your fingers to work the decal into place. Work from the center out when applicable.

Remove the transfer tape, pulling back at a sharp angle.

Use your fingers to make sure all vinyl is firmly pressed into place.

If necessary, use an exacto knife to move and adjust vinyl. You may also use the point to pop bubbles.

Enjoy
your
finished
product.
